

K-CHLOR Digital

self-cleaning chlorinator and cell

Simple salt water chlorination

K CHLOR Digital is a high performance salt chlorination system that lets you enjoy healthy, clear pool water. It is a safe, clean, easy alternative to dosing your pool with dangerous, expensive and messy chlorine granules, tablets or liquid. K CHLOR Digital improves your water quality by using harmless salt.

The K CHLOR Digital Micro-computer

Intelligent and sensible. Digital simplicity. The LCD backlit display makes navigating the menu simple. It has never been easier to choose your settings.

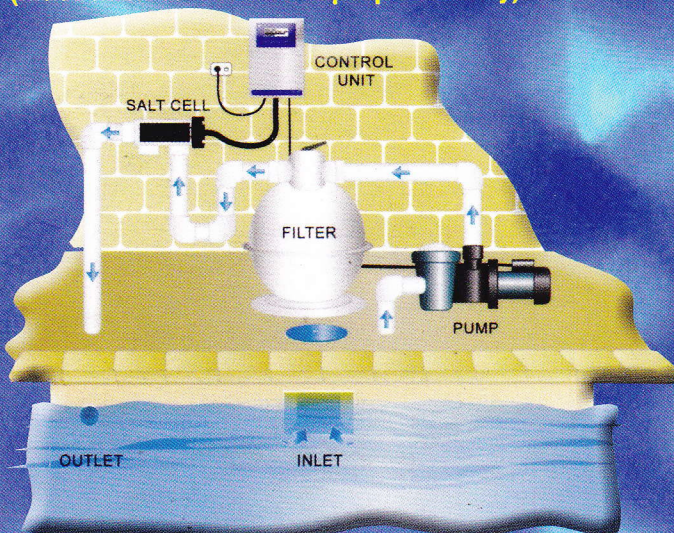

It's as close to perfection as pool technology gets!

The K CHLOR Cell

K CHLOR Digital is robustly constructed - built to high-end design specifications - and automatically reversible for self cleaning. Another tedious job eliminated. The electrode is made from the highest grade anode material on the market, housed in a flow-through housing made from clear high impact acrylic with screw top to insert and remove electrode. As mild, salty water passes through the cell, electrolytic action occurs releasing the chlorine chemical component of salt. Simple and safe.

K CHLOR Digital Models

Model	Chlorine Production gram/per hour
K-Chlor KCD-15	15
K-Chlor KCD-20	20
K-Chlor KCD-25	25
K-Chlor KCD-30	30
K-Chlor KCD-35	35
K-Chlor KCD-50	50
K-Chlor KCD-100	100

K CHLOR Digital Chlorinator and Salt Cell Overview

K CHLOR Digital Chlorinator Features

- Smart micro-computer controlled system
- Easy to use menu driven navigation system
- Backlit digital LCD display
- Backlit intuitive navigation buttons
- Precision adjustment of chlorine output to 1%
- Super chlorinate mode
- Low and high salt indicators
- Audible alert when remedial action is required
- Automatic power reduction upon high salt condition
- Pump protection
- Spa mode
- Battery backed clock
- Self cleaning cell - standard on all models
- Large cell surface area prolongs cell life
- Exceptionally high quality cell anode material assures high efficiency
- Sturdy, robust, powder coated, weather proof control housing
- Resin cap covering all connections. Avoiding excess heat from lead connectors

K-Chlor Pool Equipment Warranty

Backed by a 3 year domestic and 1 year commercial warranty on control unit and electrode. Warranties are effective from date of purchase.
